

## Boodskap op website

As we approach the end of the year, it's natural to reflect on what we've achieved and experienced. Time seems to fly, especially with the rapid pace of life and technological advancements. As FSWAU members, we have the privilege reaching out to different communities and to making a difference where we can.

Our hope for 2024 is for our society to be a source of pride for each member. We, as leaders, aim to serve with integrity and humility.

Ons projek vir 2023 "Jy is genoeg" het ten einde geloop en het vele kinderharte bly gemaak.

Die nuwe jaar bring nuwe projekte en uitdagings en die tema vir 2024 is "Kaalvoetdapperheid" Ons fokus sal op die nood by kanker pasiente val en takke en areas is reeds reg om af te skop met die jaarlikse Konferensies wat op 6 Februarie 2024 begin.

Ons nooi lede uit om ter enige tyd uit te reik na takvoorsitters en area Uitvoerende Bestuurslede. Saam sal ons die doelstellings van VVLU dryf en mekaar tot groot hoogtes inspireer.

As we bid farewell to this year, let us carry the lessons we have all learned, the triumphs celebrated and the challenges we have overcome and take it all forward together to help grow the FSWAU in many ways. Keep up your enthusiasm, camaraderie, which fill us with inspiration and shared success.
